**FREE COURSE BY MAIL**  
WITH THE  
**CAPITAL CITY**  
**COMMERCIAL COLLEGE**  
—TO ADVERTISE—

## OUR COLLEGE

We will give a thorough course in Book-keeping and Commercial Arithmetic by mail FREE OF CHARGE to a limited number of persons. This course will be completed in forty lessons. No charge for Diplomas.

Our method of instruction by mail is far superior to that of any other school in the West. Hundreds of testimonials from our patrons, testifying to this fact, are on file in our office. The phenomenal success attained in this department prompted us to widely advertise our work, and to make it a special feature of our school.

The Instructions and Exercises are conducted by mail practically in the same manner as those in our college. Rooms which make the course a full and complete one, and lead the student to a full and clear understanding of the science of accounts.

## Our Mail Department

Is under the personal supervision of an able instructor, under whose guidance the highest degree of competency may be attained by correspondence.

We offer the above-named course free to introduce our work in your community. Avail yourself of this offer at once, and show the superiority of our work to your friends. Address:

Capital City Commercial College,  
929, Kansas Ave., Topeka, Kan.

HOPEFUL SIGNS.

The indications of a general breaking up of the old parties on the financial question and a new alignment under the silver and yellow flags are most favorable. The action of the members of the State Democratic Central Committee of Illinois, who are favorable to silver, augurs well for the cause of free coinage. Senator Palmer, who is hand and glove with the gold men, has declared emphatically against the convention. He fears that it will disrupt the party, and that Indiana, Michigan, Wisconsin, Iowa and Missouri Democrats, who prefer prosperity to party, will follow the lead of Illinois. Those who are acquainted with Senator Palmer's private views on the silver question construe his published interview as a plain warning to the silver Democrats that he will leave them at the June convention declares for free silver.

President Cleveland backs up Senator Palmer, and says he is deeply gratified by the stand he has taken against a free silver convention. Senator Sherman, Major McKinley and every gold bug Republican in the country are also, doubtless, grateful to Senator Palmer, but they are too polite to so declare themselves publicly. Free silver conventions composed of men who are opposed to the single gold standard do not suit them. They want to deceive the public again by keeping up the pretense of fighting for free coinage within old party lines, for they know that in a square contest between the friends and opponents of silver they would be overwhelmingly defeated.

The National Silver Party goes into the Presidential contest with the words "Free coinage of silver and gold at the ratio of 16 to 1" inscribed on its banner. It cares not what views those who enlist under its flag may hold on the tariff, prohibition, woman suffrage or any other question. It does not inquire whether he has been a Republican, a Democrat or a Populist. It proposes to settle the financial question first. That will restore prosperity to the country, and when that is done the people, with money in their pockets, can settle minor differences to suit themselves. That the people throughout the country are at last convinced of the facts that there can be no permanent prosperity until silver is restored to its historic place as a money metal, and that the Democratic and Republican organizations are opposed to its restoration are hopeful signs and presage victory for the American Bimetallic party in 1896.

NEW ENGLAND FACTORIES PROSPEROUS.

Eastern papers say that there is unusual activity and renewed prosperity in New England manufacturing towns. The demand for print cloths at Fall River is greater than the supply, three weeks' production amounting to 919,000 pieces, having been sold in two weeks. The New York Tribune says business interests generally in New England are prospering. The sales at the factories are large, with a demand greater than can be met for several weeks to come. The New York World says the woolen mills at Haverhill, Andover, North Andover and Franklin Falls have restored the wages which were cut last year, the manufacturers not waiting for a demand from the operatives. This was in fulfillment of a promise that wages should be restored as soon as business became prosperous enough to warrant it.

So it is, New England now gets the raw material, wool and cotton for manufacturing, as cheap as it can be laid down in Old England. The manufactured goods are protected from foreign competition by a tariff. This enables the New England manufacturer to maintain control of the home market, and the cheap material enables him to compete abroad with the English manufacturer. The New England manufacturer is satisfied with this arrangement. It is what he has been demanding for years, though he feared to emphasize his demands because it would turn the wool growers of the west against him. He has it now and while he cries out occasionally against the present tariff and sheds crocodile tears in feigned sympathy with the wool-growers, he is delighted with free wool and a tariff on woolen goods, as the latter gives him control of the home market and free wool enables him to make cloth as cheap as the European manufacturers. Now he is increasing the wages of his employees and if he can only convince the latter that the free coinage of silver would rob them of one-half their wages he will be supremely happy. He wants cheap wool, cheap cotton and cheap wheat, and the appreciation of gold, by making it the sole standard of value, gives him what he desires.

JAPAN'S PEACE TERMS.

A statement of the terms upon which Japan proposes to end the war with China has been authoritatively promulgated. Japan demands the independence of Korea and the permanent cession of the island of Formosa to Japan. An indemnity of three hundred million taels of silver. The permanent occupation of Port Arthur by Japanese troops and the opening of the interior of China.

There are no gold or silver coins in China. A tael denotes a sum of money. At Shanghai it is \$1.18 and for customs it is \$1.27. The indemnity would doubtless call for custom taels and

would be almost equal to \$400,000,000 in silver. It would take years, with silver at par and all the mines of the United States and Mexico running, to produce that amount, and China would become the great market of the world for silver and would take all the silver of the world.

WILDE REFUSED BAIL.

An Express Wagon Robbed of \$16,000.

A FORTUNATE LAWYER.

The Bench Warrant for the Arrest of Huntington Returned.

AN EXPRESS WAGON ROBBERED.

The Robbers Got Away With \$16,000. CRIPPLE CREEK, Col., April 11.—The mail and express wagon which connects with the Midland Terminal railroad at Grassy, was boarded to-day, two miles from the city by two men who overpowered the driver, secured an express package containing \$16,000 and escaped on horseback. The express wagon was on route from Grassy to Cripple Creek, with mail and express matter received at Grassy on the morning train from Denver and Colorado Springs. The two men were sitting beside the road and accosted the driver, asking for a ride. He drew up the team and one of the men climbed to a seat beside him, while the other mounted the baggage behind. As soon as Smith started to drive on the man behind struck him on the head several times with a revolver. The blows staggered but did not stun him. The man on the seat with him also drew a revolver and leveled it at him, commanding him to get down and walk to the heads of the horses and hold their bridles. He complied, and while he was covered with guns, they ripped open and rifled the mail and express pouches. After securing \$16,000 which was being shipped to one of the Cripple Creek National Banks and several other valuable packages, they unhitched two of the leading horses, mounted them and rode off rapidly into the mountains.

Within twenty minutes from the time the robbery was committed Deputy Sheriffs Sterling and Jackson and two hundred men started to scour the hills in search of the robbers, who have so small a start that it is not believed they can escape.

WILDE REFUSED BAIL.

The Ethelistic Oscar Looked Haggard. LONDON, April 11.—Oscar Wilde and Alfred Taylor were brought from prison to the police court in the Black Maria on a charge of misdemeanor. Wilde looked haggard. Taylor, the alleged procurer for Wilde, was sneeringly indifferent. The prisoners made a desperate legal fight. Several boys were on the stand and testified that they sustained disgraceful relations with Wilde, who had given them money and jewelry.

Witness Shelby related how Wilde's attentions flattered him and told how Wilde gave him copies of his works with tender inscriptions, took him to theatres, to the Prince of Wales Club and to other resorts. Witness testified in detail as to Wilde's criminal behavior to him.

Then a number of disreputable lodging-house keepers from Chelsea, in which Wilde's home is situated, and several servants testified to Wilde's visits to these houses, in company with youths.

The proprietor of the Hotel Albemarle testified how he became suspicious of Wilde and finally issued a writ for a week's bill in order to prevent his returning to that establishment.

Testimony was presented showing the relations which existed between Wilde and Shelby were brought to the attention of the latter employers and Shelby was discharged after the police had presented evidence concerning the arrests.

Wilde and Taylor were remanded for a week, bail being refused.

Insane Prisoners Escape.

POUGHKEEPSIE, N. Y., April 11.—Four inmates of the State asylum for insane at Mattawan, including Oliver Curtis Perry of Syracuse, the train robber, who escaped from the institution last night are still at large. Night Watchman Carmandy was making his rounds at 11 o'clock and was passing from the main building into the isolation annex, where the more dangerous prisoners are kept, when he was attacked by five men, overpowered and deprived of his keys before he could make an outcry. Then the convicts fled to the chapel, slid down the roof and dropped twenty-five feet to the ground.

A Fortunate Lawyer.

SAN FRANCISCO, April 11.—Patrick Benson, an Oakland attorney, has received information that he has fallen heir to an estate of \$875,000 in Scotland. Benson will leave at once for Scotland to look after his inheritance. He is the great grandson of Sir John Downes, a Scotch soldier and a large land owner. A large claim against the British war department is also a part of the inheritance.

THE WARRANT RETURNED.

Huntington Cannot be Found in California.

SAN FRANCISCO, April 11.—United States Marshal Baldwin has made his return in the District Court on a bench warrant issued for the arrest of C. P. Huntington on an indictment for violating the Interstate traffic law. The Marshal certified that Huntington could not be found within his jurisdiction in the Northern District of California.

This will involve the service of a warrant in New York State or where the accused can be located. The federal officials excuse themselves for not having sent the warrant East by stating that they desired to avoid the expense which would have been unnecessary had Huntington come West in the meantime.

Fatal Affray.

CINCINNATI, O., April 11.—State Senator Goebel, a neighbor and personal friend of Secretary Carlisle, and John Sanford, President of the Farmers and Traders' National Bank, both of Covington, Ky., met on the street while returning from lunch at 1 o'clock to-day, and Goebel opened fire. He shot twice, both shots taking effect. Sanford died later. The shooting was the result of an old feud.

Inquiry Regarding Cattle.

WASHINGTON, April 11.—Secretary of Agriculture Morton to-day began an inquiry into the recent increase in the price of meats for the purpose of ascertaining if any combination in violation of law exists by which the Cattle Trust is putting up the price of beef products, while it is putting down the per capita price of cattle.

Mrs. B. E. HUNTER.

J. A. GIBSON and T. J. Burke, two detectives, have brought suit against the Southern Pacific Company to recover \$5,000, the reward offered for the capture of the persons who wrecked the train near Sacramento last July. The detectives claim to have worked up the case against Worden, who was convicted and sentenced to be hanged. The railroad company will not pay the reward because of the failure to convict the others who were arrested. Interesting developments are likely to be made at the trial.

DIED.

COOK—In Reno, April 11, 1896, Mrs. Mary F. Cook, aged 72 years.

Only the Scars Remain.

"Among the many testimonials which I have in regard to certain medicines performing cures, cleansing the blood, etc." writes HENRY HUBSON, of the James Smith Woolen Machinery Co., Philadelphia, Pa., "none impress me more than my own case. Twenty years ago, at the age of 18 years, I had swellings come on my legs, which broke and became running sores. Our family physician could do me no good, and it was feared that the bones would be affected. At last, my good old mother urged me to try Ayer's Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. Only the scars remain, and the memory of the past, to remind me of the good weight two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have noticed Ayer's Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it did for me."

CAPITAL NOTES.

General Observations and the Mint Investigation Especially Considered—The Result Thus Far Sent on to Washington to be Heard From Later On—Reportorial Humbergery—Salvation Incidentals, etc.

(Correspondence of the JOURNAL.)

CARSON CITY, Nev., April 11, 1895.

The Carson Mint investigation is apparently nearing some sort of a conclusion. The result thus far attained in the way of examination, figuring, etc., has been forwarded to Washington and will be heard from officially later on. Meanwhile the matter does not rest altogether, but Inspector Mason still studies and figures. Grant and Harris of the Chicago Detective Bureau are on the *qui vive* and several other detectives and curious officials are around.

No cause was assigned for the suspension of Assistant Meltzer and Refiner Jones, but it is to be inferred that it was in consequence of the investigation having arrived at its present stage. Assistant Ernest Harris in that department is employed at some details of the work and nothing sensational may be expected till Washington is heard from.

Charles Gabriel, who is booked to supersede Jones, came down from Virginia this morning and returned this evening. There will be no change made at present and if the mint should be discontinued he will not get in at all.

REPORTORIAL.

Newspaper reporters work quietly and watchfully around, still hopeful, but none from San Francisco are needed since the achievements of the *Examiner* in this matter. That paper of yesterday in a trashy lot of incongruities, tells about how Superintendent Adams first discovered the shortage. In making his regular daily round of examination he found a lot of golden ingots and granulations in a melting pot, where it should not be, and that Henry Piper, the guilty one, put on his coat and slid out to return no more. Adams was not the original discover of the shortage, and Henry Piper left the mint at least a year before Adams became Superintendent. If outside papers would quit such detrimental nonsense it would be much better for their credit and for all concerned.

INCIDENTALS.

Every new or prominent looking person arriving is still looked upon as a detective of some kind. Bill Zirn, of the famous Zirn mine out at Pinenut, has been in town the last day or two and Coffin, of the Pandora mine, Jumbo District, is also here. Coffin has had extensive bullion transactions with the mint during the last twenty years, and is seen with the mint officials and detectives. A large blonde woman has also been here the last few days, and was seen to visit the mint twice yesterday. Some even spot her as a detective or witness, as well as the other two mentioned, and Sheriff Kinney has his eye on them all.

The credit of the mint employs for board, etc., was much impaired at first by this investigation, but has improved considerably this week.

The Salvation Army arrived from Reno this morning and will hold sinner-saving services here this evening in encouraging style. The field is a good one and they should have been here during the Legislative session, but it is never too late to do good.

A GOOD PLAY.

A Large Audience Almost Assured—The Knights of Pythias of this city will present "Damon and Pythias" on next Tuesday night with a local cast of characters in addition to Mrs. Katie Laurie as Calanthe, and little Lizzie Laurie as the child. The entire production will be under the direction of the experienced actor E. S. Laurie, at present disabled through accident. The Woodland Democrat speaks as follows of a recent performance there of this play:

"Mrs. Laurie, in the character of Calanthe, the promised bride of Pythias established herself as a warm favorite with the audience. She is an accomplished actress, dresses with good taste, is easy and graceful in all her stage situations, and invests her impersonations with a finish that can only be acquired by experience."

The sale of seats at Nasby's has been large and beyond doubt the Opera House will be filled next Tuesday night.

An Old Resident Passes Away.

Mrs. Mary P. Cook died at midnight last night, aged 72 years, after a lingering illness of several months. She leaves two sons, Frank and Finley, and a daughter in New York, Mrs. Rhodes, to mourn her loss. Mrs. Cook was one of the early settlers of Washoe county, and is known by almost every resident. She was a Christian woman, never hesitating to go to the relief of a sufferer or minister to the wants of anyone in distress. Her family was her world and her happiness in life was to make those around her happy. She was a woman that helped to build up the West, coming to the Coast in the earliest days. She has fought the battle of life in all of its phases and now, after many years of usefulness, quietly and peacefully passes away, but her memory will be treasured by all who knew her.

SENATE CONCURRENT RESOLUTION.

General A. J. Warner Acknowledges the Receipt of a Copy of it.

HEADQUARTERS EXECUTIVE COMMITTEE AMERICAN BIMETALLIC PARTY, SEN BUILDING, WASHINGTON, D. C., April 6, 1895.

Hon. Eugene Howell, Secretary of State, State of Nevada.—DEAR SIR:—I beg to acknowledge receipt of Senate Concurrent Resolution of the Legislature of the State of Nevada, endorsing the action of the American Bimetallic League in inaugurating a movement to unite those in favor of restoring the bimetallic standard of money in the United States, for that purpose and to subordinate everything else to this as the supreme issue; and also the endorsement of Joseph C. Sibley of Pennsylvania as a suitable candidate to lead this movement in the election of 1896.

The State of Nevada has the honor of being first in the field in this movement, as a State, not only by the action of the Legislature as manifested in this Concurrent Resolution, but the organization of a similar movement as long ago as the Presidential elections. I beg to assure you, and through you the Legislature of your State, that its action is most highly appreciated, and that coming as it does at the inception of the movement, it is in the highest degree encouraging. I have the honor to be,

Very Respectfully,  
A. J. WARNER,  
President.

The Carson *Tribune* says if the *Journal* knows the names of the persons who took the bullion from the Carson mint, as it intimates it does, it should publish them, or send them to the *Tribune* for publication. The *Journal* begs leave to assure the *Tribune* that not only the *Journal*, but the officers have known the names of some persons who took a part of the bullion from the Carson mint, but as it wants them brought to the bar of justice it does not propose to inform the *Tribune* who they are.

THE ADVANCE IN CATTLE.

What an Energetic Citizen Has Done Toward Promoting It—Ring Methods of Rearing the Market.

The recent advance in the price of beef cattle has benefited Nevada cattlemen to the extent of thousands of dollars, and had it occurred earlier in the year it would have been still more beneficial. The general cause of the advance is the scarcity of beef cattle, and the local causes are the action of the cattle owners in exercising discretion, which they did not do a year ago, and the energy of John Sparks, who has shipped a number of trainloads of cattle east. These cattle would have given the San Francisco buyers opportunity to bear the market and keep prices a cent or two per pound lower than they now are.

A year ago last fall the San Francisco cattle ring had a census taken at the expense of the cattle men, of all the beavers in the country. Cattlemen were invited to send their names, places of residence and number of cattle which they intended to market to certain papers for publication. The unsuspecting stockmen were led to believe that it would benefit them to do so and they complied with the request. The cattle sharks were furnished with the information they desired and they divided the territory among themselves and compelled the cattle owner to come to their terms. The cattle men saw through the game after awhile and discovered that they had been sold. That game could not be played again last fall so a new one was tried. It was proclaimed in certain papers about election time that tens of thousands of cattle were being imported from Mexico in consequence of low tariff; that Nevada beef cattle would be sold for a song, and that hay in consequence, would be unsaleable. This was to have the double effect of frightening the cattlemen so that they would sell at any price offered, and causing ranchers who had hay, to dispose of it for what they could get. Now, when too late, they see the points in that game, and will not be taken in by it again. No doubt some other method will be devised next fall for giving the cattle ring the advantage.

Abraham Lincoln.

County School Superintendent F. H. Norcross will give an address at the High School at 2 P. M. to-day, on the assassination of Abraham Lincoln in Ford's theatre, April 14, 1865. Having many times visited the scene of that dire tragedy, Mr. Norcross will doubtless present some interesting facts and descriptions in reference to it.

The American Silver party intends to make an aggressive fight. Republican and Democratic politicians who treated it with derision a few weeks ago are getting alarmed at its growth. They see that in spite of their efforts to keep the people divided on unimportant issues, the financial question is forcing itself to the front and will be the paramount issue in the Presidential election. Next year the goldbugs must show their true colors.

A terrific storm swept over Seattle, Washington, Wednesday. The wind blew sixty miles an hour lashing the waters of the Sound into fury. All the telegraph and telephone wires were blown down, steamboats were torn from their moorings and a falling tree struck a train on the Lake Shore road and threw several cars into Lake Washington.

People who know that thousands of dollars worth of refined gold, 990 fine, has been taken from the Carson mint, melted into bars by innocent persons in Reno, and the proceeds paid to the persons who brought the gold here are wondering why no arrests have been made. Will the Government have to send an investigating committee here to ascertain why this is so?
